and should I die?? without this conspiracy being broken --- a wrongful death suit could be sought by by finding and comprehending the story that is documented real time events on my internet domains serving a life life journal of James Martin Driskill for now more than 15 years. [Quite Organized I am Proud of That]

What is not realized by most internet users as it relates to the technologies designed by the creators of these protocols long time ago, there is an alternative operating mode of internet domain technology configurations In essence, instead of requiring objects to be pre-assigned, and if not assigned, processing is rejected by ERROR. In this alternative operating mode, available to all internet domains across this technology, the exact opposite is then REVERSED --

Assumption Inverted -- or rather assumptions are not considered at all,

There is no such condition in any future time possible to most imperative relevant when it is to a extreme here, reflective our our social norms and imbalances of #AllLivesMatter -- #BlackLivesMatter, #BlueLivesMatter where the designers of our internet did not take into consideration where describing internet connections and accessibility, and it is when you know the root of these technologies - extensive - expansive reflections, why this is fundamental and what debates must have been placed [or simply commons prevailed] in the simple of its late 1960s humanity thought to coded reasoning sources, study of the roots of the internet itself, -- it is the only way it can work.

For those who can't see this vision -- too late, the Genie was released from the bottle

--- a Good Genie - such a simple 5 word here

what this invention is --- #AllMatters from #AllSources --- must PASS - AS IMPORTANT #DealWithIt human! The technology scope is called [CATCH-ALL].

Every Combination of Allowable Size for NameId passes this logic check to the next process rather than creating an ERROR.

In the email header here, this same technology spec is applied in the ID Name Descriptor of the TO: Addressing but in fact has no default pass/reject logic gate in the protocol itself but only in applied human match filtering if such is applied by humans after COMPLIANT POP3 Applied Processing is performed. In my history, I have very very few individual human sources identities to be rejected -- really.

Most are true spam sources operating bot code.

Also not widely used across the net [>90%] of internet domains have this feature described above disabled on a different scope as it applies to internet traffic not email addressing.

If you made this syntax -- assumption must be applied -- most internet traffic today would reject in error what is basically the same rule set of ID assignment that describes a unique ID [digital object] affixed and applied on an real time processing of an internet.

As is most known digital object 1 for an internet email address the @domain.ext to form an email [POP3] compliant valid ID as an email address protocol. Valid only if such DNS or email box ID might be conditions that change.

Which DNS lookup to return an actual now IP6 format routed communication channel real time to direct the communications.

 Me:Hi There Yolanda -- we have an extremely true serious matter to put into a frame reference understanding --- and when I attempted that with my rep -- SHE BLOCKED ME ON FACEBOOK -- so far has not contacted me
 Me:Did you read my intro?
 Yolanda:I apologize for this inconvenience. I will be glad to assist you today Mr. Driskill.
 Me:Please call me Martin
 Yolanda:While I access your policy, I want to take a moment to invite you to complete a short survey at the end of our chat. It will allow us to get your feedback on our interaction today.
 The survey will appear once we have finished and you click "End Chat".
 Yolanda:Thank you Mr. Martin!
 Yolanda:Yes I did read it.
 Yolanda:No worries. I will be glad to assist you today with that.
 Me:Thank you -- the more detailed data fields added into this record -- THE BEST
 Yolanda:Is this for your sales representative?
 Yolanda:I'm glad that you liked the system.
 Me:Trisha Williams -- I am creating a pathway workaround ---
 Yolanda:No worries, what kind of workaround are you trying to, Mr. Martin?
 Me:My full name is James Martin Driskill and my name can be googled to reflect a social media web presence on these matters.
 Me:I am a what is said ---

I am a TARGETED INDIVIDUAL of #GangStalking --- you might not yet know what that is --- [patience here --- the learning curve is in this chat's ability to my fingers actions to express this --- masterfully.
 Yolanda:I understand! And I am so sorry that you are going through this! Can be a lot to handle!
 Me:The presence of GANG STALKING has been involved in my life for 15 years -- follows me from region to region, city to city, started in 2005 in Oakland and present here in 2020 in my hometown of San Bernardino CA

It is not just speculation here when I say this --- it is DIRECTLY RELEVANT to my health conditions as a person living with HIV/AIDS disease since my first diagnosis in sept 1999
 Yolanda:I am so sorry. That you are going through this Mr. Driskill. Thank you for sharing your story with me, and I will be glad to assist you with anything you need.

Me:[There is a SOLUTION HERE --- I WILL NOT ACCEPT "No" for an answer

Me:This presence of #GangStalking has been in my life for 15 years --- has not terminated. Let me QUOTE from the RESEARCH FINDINGS

Me:3. Results

3.1. Length of Stalking

None of the writers of the narratives described their experiences as having ended. All 50 authors stated or implied that they had been gang stalked for lengthy periods of time (e.g., one mentioned being seen by seven psychologists during the period of being targeted, another described having been targeted whilst living in three different countries). The shortest case was described as having begun â€ˆin the last few monthsâ€ and the longest as continuing for â€ˆmore than 22 yearsâ€ .

3.2. Reasons for the Gang-Stalking

The narratives were examined to establish whether the perceived reasons for being targeted by gang stalkers could be identified. Reasons were found in 20 of the 50 accounts. In all 20 cases, no named person was believed to be targeting the victim. Representative examples of the reasons given for the gang-stalking were as follows:

â€ˆWhy? To drive people to meet-up groups or a psychiatrist so they can be medicated and/or get more federal grants for more mental health instead of training a real police force. Post Traumatic Stress Disorder is a big seller in the area.â€

â€ˆIt is a brainwashing military experiment. Post 9/11, they isolate certain people to stop them acting against government.â€

Me:5. Conclusions

The experience of being gang-stalked appears to be a widespread phenomenon that has been subject to little scientific examination. The current study provides a preliminary description of the phenomena involved that was

produced by a methodology that did not incorporate preconceived assumptions. This provides a foundation upon which further research could be built. It also serves to confirm the harmful effects of the gang-stalking experience upon sufferers, first set out in the only other study available [5]. These findings constitute a potent reason why gang-stalking should be regarded as an important subject for study.

Whilst it was important to adopt a methodology that allowed the phenomena constituting the experience of gang-stalking to emerge de novo, it would now be appropriate to conduct studies of cases based upon specific questions in order to gain a clearer idea of the proportion of sufferers who experience each category of phenomenon, as the main categories have now been elucidated and the core phenomena described. This is because higher proportions are likely to be elicited through direct questioning than were found by studying internet descriptions. Finally, whilst this study has described the core phenomena of the gang-stalking experience, the question remains as to whether gang-stalking is a single phenomenon or represents several overlapping phenomena, each with its own defining pattern of experiences.

Honesty

Billy Joel

If you search for tenderness

It isn't hard to find

You can have the love you need to live

But if you look for truthfulness

You might just as well be blind

It always seems to be so hard to give

Honesty is such a lonely word

Everyone is so untrue

Honesty is hardly ever heard

And mostly what I need from you

I can always find someone

To say they sympathize

If I wear my heart out on my sleeve

But I don't want some pretty face

To tell me pretty lies

All I want is someone to believe
 Honesty is such a lonely word
 Everyone is so untrue
 Honesty is hardly ever heard
 And mostly what I need from you
 I can find a lover
 I can find a friend
 I can have security until the bitter end
 Anyone can comfort me
 With promises again
 I know, I know
 When I'm deep inside of me
 Don't be too concerned
 I won't ask for nothin' while I'm gone
 But when I want sincerity
 Tell me where else can I turn
 'Cause you're the one I depend upon
 Honesty is such a lonely word
 Everyone is so untrue
 Honesty is hardly ever heard
 And mostly what I need from you

This REFLECTS LANGUAGE of HOW just mere MENTION of the phrase --- "Mass Shooting" and "Mass Murder"
transgresses into the doctor claiming THREATS MADE:

<http://doctor-eric-tomomi-shigeno.fuckeduphuman.net/SanBernardino-SuperiorCourt/Gmail%20-%20Defendant%20Address%20To%20The%20Court%20for%20the%20Public%20Record%20Of%20Truth.htm>

Me:THIS IS LONG:

Me:I would like to address the court and make a public statement for the commonwealth interests that are above
what is either the plaintiff or defendant's positions in regards to this case. That would be the
understanding of the causes of mass gun shootings and the methods to which the society can apply to stop the
epidemic of this ongoing and seemingly never-ending event after event after event of human slaughter killings.

Dear Your Honor, opposing counsel Attorney Dale Henderson, the petitioner of a restraining order Doctor Eric
Tomomi Shigeno, supporters of the defendant appearing in court to include my mother and neighbor along with all
interested peoples of the public commonwealth as this case is being recorded and will become an imperishable
record for all-time human history.

I relate as an author here what are current "published works" as they are presented currently on the
publicly accessible surface web indexed informational society medium formats.

This includes a history of every single fax directed by this author to petitioner as well as recent faxing
directed to his counsel. I consider these faxes published works. Does anyone wish to disagree with this?

Review Public Directory Contents of:

<http://doctor-eric-tomomi-shigeno.fuckeduphuman.net/Faxes/>

I ask for you to consider these logically applied thoughts into view and by having such application of view
creates a condition that cannot be perceived as words issued by this author as threats.

The standard that I would like to mention is the use of language.

If an author mentions "suicide" within the text body of their words, the presence of such a word term
"suicide" does not imply nor should it ever by default that the author's intention reflects the position
as being suicidal. Taking this out of context to apply to any author on this subject to imply such an intention
would be dangerous to consider as a standard approach. Dangerous that no author would write about suicide if
such a standard existed. If such a standard existed, it would oppress the ability for the freedom of expression

and the first amendment to the United States Constitution to have the ability to discuss suicide in any format.

We can apply this same argument on the mere mention of the word "homicide" does not imply that the author is homicidal. If a standard exists, it must allow for the freedom of expression to exist to freely express the subject of homicide without being inverted upon the author as the intention to cause homicides. We must find that logic exists in the use of language standards.

Now as these logics continued, the mere mention of "Mass Gun Shootings" does not imply the standard by default that such a mention by an author should take a standard that the author is intended on acting out harm by a mass gun shooting event at all, nor would it imply a target to be implicitly directed against a single person. Taking this mere mention of phrase into consideration and holding such a deviation of standard approach that targets the author as the mass gun shooter would be dangerous to the freedoms of expression and the freedoms of speech.

Now apply this to the term also being characterized as a threat, "mass murder". If such a deviation of standard exists that places the mere mention of the phrase "Mass Murder" as an issued threat, then this article can not be referenced.

Mass Murder is Capitalist Misery: Economy Meets Psychology

The standard that must be applied here must allow the freedom of speech to express the term "mass gun shootings" and subsequently the term "mass murder" as a point of discussion and a deviation from this standard that has been applied here in this case by the method that is explicitly said is the position of the petitioner.

Implied threats can not be reached nor can the petitioner expand on any expression of words together from author outside these terms by themselves that shutters the petitioner's emotions to imply that mere mention of the phrase "Mass Gun Shootings" or "Mass Murder" scares him to an irrational mind.

Are we going to allow the irrational mind to rule over the logistics of rational thinking here? That is dangerous and has the effect of suppressing my freedoms of speech.

This does not consider the expression fully of the English Language upon the authored words which are now "published works" of this author for the entire public to review.

As the court has imposed a deviation of the standard that is dangerous to apply to the use of the word "suicide", the use of the word "homicide" and subsequently as this case applies the use of the phrases "Mass Gun Shootings" and "Mass Murder".

Now, why is this deviation of a rational standard that has been applied in this case dangerous to the author's freedoms of speech?

Because it is noteworthy and the public has the ability to review, the total of all faxes directed to the petitioner was to engage a discussion point of reference on the subject of "Mass Gun Shootings" that this author actually has the implicit point of view of one who is attempting to get a public's attention to the solution, or at least referenced and filed in the defendant's answer, an "antidote" to apply on a conscience level across society to place a counter-pointing force to stop these mass gun shootings.

But if you allow the deviation of standard to apply to this case as it has already shown, is dangerous to my authorship and any other authorships future forward to the corrective needs that must be addressed in a public arena to discuss on how to address any kind of "social correction" or "fix" for the conditions that are in place that is at the foundation of the cause for "mass gun shootings".

How can this court apply this deviation of standard and such an application that is dangerous to anyone who might also wish to publicly discuss this topic? To hold a discussion without having such inversions that have been applied into the filing of this case to be continued. In that deviation of standard, we are never able to hold a discussion forward about the topic of "mass gun shootings" and they will continue to never be able to be addressed for public discussion.

That is what is before you in this case.

All the defendant is asking for is a public forum and discussion about the termination of a hate conspiracy embedded in the Ryan White Care act funded social service agencies and doctor provider care network as such a conspiracy has taken into consideration is one major source of the erosion of trust that is causing mass gun shootings. The two subjects are interdependent and are inseparable to consider before you this day.

By holding the misapplied logics deviation of standard against this author is dangerous to the freedoms of speech and should not be allowed.

If the petitioner could pull out a fully formed worded threat that is expanded directly to imply upon the author's words, have him do so before this court or have this case dismissed immediately and the petitioner and counsel reprimanded for their obvious attempt to deceive and manipulate the court proceedings at the detriment to the intention of defendant to find and provide an answer for discussion to resolve these mass gun shooting events.

Thank you.

My mother would like to also address this court.

Can she please be given that time to address this court for how the hate received from the source of social services from these circumstances has drastically altered the life course of the defendant, her son.

She writes to the Dr. Phil show on some kind of resolution to these matters.

 Me:THEY DID NOT DISMISS THE CASE --- FOR CONSPIRACY HOLDS --- I LOSE!
 Me:You can CALL MY MOTHER AT 909-882-8759 --- SHE IS ALSO A HUMANA HEALTHCARE SUBSCRIBER --- Veronica Ann Driskill -- Same Address Here as Me -- She is RATHER WORRIED in all of these EVENTS that there is NO REMEDY to --- and I am DEAD --- really Sir -- This is REAL! Since you indeed have LINKS here in this CHAT - your POLICY that you REFUSE to LINK UP TO the LINKS PRSENTED TO YOU AS A USER IN THIS CHAT -- IS BOGAS TO NEED -- I HAVE MY SUSPECT CONCLUSIONS WHY YOIU HOLD SUCH A POLICY --- BECAUSE YOU DO NOT WANT TO GET CAUGHT INTO A INFORMATIONAL VORTEX THAT YOU CANNOT PLACE INTO TRUTH REFERENCES -- -A WASTE OF TIME -- THIS IS NOT THAT KIND OF HUMAN BEING HERE --- AND -- IF THAT IS REALLY THE REASON WHY YOU CANNOT LINK -- -TELL ME NOW -- AND LINK TO WHAT IS PRESENTED -- SO WE CANO PROCEED HONORABLE --- WITH THE NEED TO DECEIVE THIS RECORD -- BECAUSE OF SURE SPEED OF DELIVERY OF YOUR WORK EFFORT -- #WrongWayThinkingParadigm Here ---
 Me:@Gruwup 2020 : Humana-Chat-Kevin-Mark -- Addressing the Learning Curve
 Kevin Mark:My apologies, I was just reading what mentioned earlier
 Me:Don't Lie To Me - By Barbra Streisand From Album Walls
<http://humana-chat-kevin-mark.music.fuckeduphuman.net/Dont-Lie-To-Me/>
 Me:SIR -- THAT APPEARS AS A VALID CLICK [HyperLink] in this CHAT TOOL -- REALLY SIR -- WHAT RESTRICTIONS ARE IN PLACE - FILTERING -- THAT STOPS THE PROGRESSION OF PROCESS AFTER LINKING?
 Me:THAT LINKS TO A 4 PART YOUTUBE VIDEO PLAYLIST
 Me:ON YOUTUBE
 Kevin Mark:Thank you for sharing that!
 Me:AS REFERENCED IN URL NAMING ADDRESSING --- THE PRESENCE OF YOUR ID THERE -- INFORMS YOU AS THE RECIPIENT -- MORE OF AN OBLIGATION TO LINK -- AND DISREGARDING THAT OBLIGATION IS NOT REALLY CONSENTED -- TO PASS BY -- IGNORING IT --- INTO A VOID -- OF OUR EXCHANGES HERE ---- YOU HOLD IGNORANCE -- FOR WHICH -- THIS CHAT TURNS -- UNBALANCES --- AND PERHAPS FAILS! -- You Know What I am TALKING ABOUT!
 Kevin Mark:No, I know I can't ignore that
 Me:So, in order for a future position of removing ignorance -- you will find this chat archived and re-read it -- and follow the ACTIVE LINKS as it is --- SHOWING -- -I WILL CREATE A PDF -- UP FOR that right now. UPLOAD IT -- and if you have a mobile device outside of your working network -- NO FUCKED UP HUMAN EXCUSES SIR!
 Kevin Mark:That sounds great, I could do that Mr. Driskill
 Me:Shit -- this chat client is not presenting the entire page --- hold on.
 Kevin Mark:I noticed there was something wrong, okay
 Me:Are you using a CHROME BROWSER RIGHT NOW -- -if not -- ok --but you can save this file -- open in chrome!
 UPLOADING
 Kevin Mark:I don't think I will be able to save a file, my computer currently doesn't have the permission to do so
 Me:i can archive it publically
 Me:<http://webdomains.realuphuman.net/humama.com/> --- CREATED FOLDER
 Kevin Mark:Thank you Mr. Driskill
